Protect yourself from scams

#StopScams #PublicPower

Never give personal or financial information to an unsolicited caller.

BPW customers, please be aware of scam calls. Never give out your banking information by email or phone unless you are sure of who you are speaking to. The BPW will not demand banking information by email or phone. We won't force you to pay by phone as your **only** option. You can learn more about recent scams on the Federal Trade Commission website at <https://www.consumer.ftc.gov/features/scam-alerts>.

Utility meters are needed to monitor the utility use at your residence. Both the electrical and water meters need to always be accessible to BPW employees.

Clear access is needed for accurate readings and to perform routine maintenance. The planting of trees, shrubs, vegetation, or any other obstructions near the meter can hamper meter reading or result in damage to the equipment.

In the event of an outage, meters that are inaccessible can result in additional time without power and possibly additional expenses to the customer. Please do your part in keeping your residence safe and unimpeded. Thank you!

REMINDER ABOUT WATER METERS

Water meters are the customer's responsibility per city ordinance 3-710. If a water meter becomes damaged due to exposure to cold temperatures, the customer shall be held accountable. Once BPW is notified of the damaged water meter, it will be replaced, and the customer will be billed for the replacement.

Why didn't the turkey eat dinner?

He was already stuffed!

2022 Energy Fest

Auburn and Johnson-Brock students attended BPW's annual Energy Fest on October 13, 2022. Tours were given of the Water, Wastewater, and Power Plant as well as an Electrical Safety demonstration by BPW linemen. The BPW staff take great pride in displaying their facilities to our area youth, as well as extending useful knowledge into the world of utilities.
