URBAN RESIDENTIAL SERVICE - 100

Availability:

To occupied single-family dwellings, apartments, condominiums, and mobile homes (that have towing devices removed) that are individually metered within the city limits of the City of Auburn, Nebraska.

Any residential dwelling, which is used for business or professional purposes, will be considered General Service when the commercial connected load exceeds 15 KW. RV / Travel Trailers would be classified as commercial service.

Type of Service:

Single-phase 60 Hertz, at 120 Volt or 120/240 Volt service, with a maximum connected capacity 75 KVA.

Monthly Rate:

Base Amount of \$9.95 plus

Energy Charge of:

Summer

\$0.0866 per kWh for all usage

Winter

\$0.0923 per kWh for first 1,000 kWh

\$0.0526 per kWh for balance

Minimum Monthly Bill:

\$16.00

Monthly Bill:

The monthly bill computed in accordance with the Monthly Rate is due upon receipt. Bills not paid by the delinquent date indicated on the utility bill shall have a penalty amount added to the net monthly bill (excluding sales tax). If the due date falls on a non-business day, only payments received in the night drop box and through the AM mail on the next business day following the due date will not be assessed a penalty.

Fuel and Production Cost Adjustment

A fuel and production cost adjustment may be applied to all energy used in an amount per kWh equal to the increase or decrease in the District's cost due to the most recent fuel and production cost adjustment from the District's power supplier plus an adjustment for system energy losses based on the previous calendar years' experience.

Municipal Agreement Charge - Franchise Fee:

Where the BPW has an agreement to pay Franchise Fee that amount will be added to each customer's bill. Customers on this rate have a Franchise Fee of \$0.003 per kilowatt hour added to their bill before application of a fuel and production cost adjustment.

Terms and Conditions: Refer to "Terms and Conditions Schedule".

RURAL RESIDENTIAL SERVICE - 700

Availability:

Occupied single-family dwellings, apartments, condominiums, farmsteads, and mobile homes (that have towing devices removed), that are individually metered outside the city limits of the City of Auburn, NE. This would include the Villages of Brownville, Johnson, and Nemaha.

A residential dwelling, which is used for business or professional purposes, will be considered General Service when the commercial connected load exceeds 15 KW. RV/ Travel Trailers would be classified as commercial service.

Type of Service:

Single-phase 60 Hertz, at 120 Volt or 120/240 Volt service, with a maximum connected capacity 50 KVA.

Monthly Rate:

Base Amount of \$12.85 plus

Energy Charge of:

Summer
\$0.0905 per kWh for all usage

Winter
\$0.0970 per kWh for first 1,500 kWh
\$0.0630 per kWh for balance

Minimum Monthly Bill:

\$16.00

Monthly Bill:

The monthly bill computed in accordance with the Monthly Rate is due upon receipt. Bills not paid by the delinquent date indicated on the utility bill shall have a penalty amount added to the net monthly bill (excluding sales tax). If the due date falls on a non-business day, only payments received in the night drop box and through the AM mail on the next business day following the due date will not be assessed a penalty.

Fuel and Production Cost Adjustment

A fuel and production cost adjustment may be applied to all energy used in an amount per kWh equal to the increase or decrease in the District's cost due to the most recent fuel and production cost adjustment from the District's power supplier plus an adjustment for system energy losses based on the previous calendar years' experience.

Municipal Agreement Charge - Franchise Fee:

Where the BPW has an agreement to pay the city a percentage of the customer's retail revenue, such percentage will be added to each customer's bill before application of a fuel and production cost adjustment. Customers on this rate will have a Franchise Fee of 5% added to their bill before application of a fuel and production cost adjustment.

Terms and Conditions: Refer to "Terms and Conditions Schedule".

Availability:

To customers that reside within the city limits of Auburn, NE and do not qualify as residential.

Type of Service:

Single-phase, 60 Hertz at standard secondary Board of Public Works voltages with a maximum single-phase capacity 80 KVA.

Monthly Rate:

Base Amount of \$17.35 plus

Energy Charge of:

Summer

\$0.0904 per kWh for all usage

Winter

\$0.0981 per kWh for first 3,500 kWh

\$0.0672 per kWh for balance

Minimum Monthly Bill:

\$21.00

Monthly Bill:

The monthly bill computed in accordance with the Monthly Rate is due upon receipt. Bills not paid by the delinquent date indicated on the utility bill shall have a penalty amount added to the net monthly bill (excluding sales tax). If the due date falls on a non-business day, only payments received in the night drop box and through the AM mail on the next business day following the due date will not be assessed a penalty.

Fuel and Production Cost Adjustment

A fuel and production cost adjustment may be applied to all energy used in an amount per kWh equal to the increase or decrease in the District's cost due to the most recent fuel and production cost adjustment from the District's power supplier plus an adjustment for system energy losses based on the previous calendar years' experience.

Municipal Agreement Charge Franchise Fee:

Where the BPW has an agreement to pay the City a Franchise Fee that amount will be added to each customer's bill. Customers on this rate will have a Franchise Fee of \$0.003 per kilowatt hour added to the customer's bill before application of a fuel and production cost adjustment.

Terms and Conditions: Refer to "Terms and Conditions Schedule".

GENERAL SERVICE THREE PHASE – 110

Availability:

To customers who reside within the city limits of Auburn, NE and do not qualify as a residential customer. Customer's service size is equal to or less than 200 amp connected capacity or their recorded demand is less than 100 KW for two consecutive months.

Type of Service:

Three-phase service, 60 Hertz at Board of Public Works secondary or primary voltages with a maximum demand capacity of less than 100 KW for four consecutive months

Monthly Rate:

Base Amount of \$21.00 plus

Demand Capacity in excess and over 100 KW Charge of:

<u>Summer</u>	<u>Winter</u>
\$10.71	\$8.96

The maximum monthly integrated 15 minutes kilowatt load occurring at any time during the Billing Period and measured with a Board of Public Works meter or determined by other means.

Energy Charge of:

<u>Summer</u>	<u>Winter</u>
\$0.0904 per kWh for all usage	\$0.0981 per kWh for first 3,500 kWh \$0.0672 per kWh for balance

Minimum Monthly Bill:

The minimum monthly charge shall be \$25.00 or \$1.00 per KVA of required transformer capacity, whichever is greater.

Monthly Bill:

The monthly bill computed in accordance with the Monthly Rate is due upon receipt. Bills not paid by the delinquent date indicated on the utility bill shall have a penalty amount added to the net monthly bill (excluding sales tax). If the due date falls on a non-business day, only payments received in the night drop box and through the AM mail on the next business day following the due date will not be assessed a penalty.

Primary Service:

When a customer takes service at primary voltage and does not own all transformation and electrical system from metering point to the secondary utilization voltage, the customer shall receive an adder of two and one-half (2.5%) percent on demand and energy charges. Such adder shall be added to customer's bill before application of the fuel and production cost adjustment.

When a customer takes service at primary voltage and owns all transformation and electrical system from metering point to the secondary utilization voltage, the two and one-half percent (2.5%) adder shall be waived.

Fuel and Production Cost Adjustment

A fuel and production cost adjustment may be applied to all energy used in an amount per kWh equal to the increase or decrease in the District's cost due to the most recent fuel and production cost adjustment from the District's power supplier plus an adjustment for system energy losses based on the previous calendar year's experience.

Monthly Energy Charge of:

Summer

\$0.0932 per kWh for all usage

Winter

\$0.0837 per kWh for all usage

Minimum Annual Bill:

The minimum annual charge shall be \$30.00.

Monthly Bill:

The monthly bill computed in accordance with the Monthly Rate is due upon receipt. Bills not paid by the delinquent date indicated on the utility bill shall have a penalty amount added to the net monthly bill (excluding sales tax). If the due date falls on a non-business day, only payments received in the night drop box and through the AM mail on the next business day following the due date will not be assessed a penalty.

Terms and Conditions: Refer to "Terms and Conditions Schedule"

Board of Public Works
P.O. Box 288
Auburn NE 68305-0288

Electric Rate Schedule
Effective: January 2017 Billing Period

GREEN UTILITY RATE

Availability:

This is a voluntary Green Power program to promote the use of alternate energy generation. We are offering our customers the option of supporting electricity generated by renewable resources.

Type of Service:

This service is in addition to the regular electric charges incurred on the account.

Monthly Rate:

Monthly Energy Charge of:

\$1.80 per 100 kWh block purchased

Monthly Bill:

The monthly bill computed in accordance with the Monthly Rate is due upon receipt. Bills not paid by the delinquent date indicated on the utility bill shall have a penalty amount added to the net monthly bill (excluding sales tax). If the due date falls on a non-business day, only payments received in the night drop box and through the AM mail on the next business day following the due date will not be assessed a penalty.

Terms and Conditions: Refer to "Terms and Conditions Schedule"

NET METERING (RENEWABLE ENERGY)

AVAILABLE:

To Qualified Renewable Generation with production capacity of 25 kW or less, in conjunction with retail loads.

Qualified Renewable Generation includes - electric generators powered by methane, wind, solar, biomass, hydro or waste technologies.

CHARACTER OF SERVICE:

The character of purchased power will be single- or three-phase alternating electric current at 60 Hertz. Voltage shall be determined by the voltage of the local distribution system. Facilities on this service will be metered with a supplied bi-directional meter.

PURCHASE OF OUTPUT FROM RENEWABLE GENERATOR CUSTOMERS:

Owners of renewable generation will be allowed to parallel these facilities and use the electrical output of their renewable generation to supply all or a portion of their own load and deliver the surplus to the distribution system with the proper safety equipment installed.

The BPW will credit a customer-generator at the applicable retail rate for each kilowatt-hour produced by a qualified facility during a billing period up to the total of the customer-generator's electricity requirements during that billing period. A customer-generator may be charged a minimum monthly fee that is the same as other noncustomer-generators in the same rate class but shall not be charged any additional standby, capacity, demand, interconnection, or other fee or charge; and

The BPW will compensate the customer-generator for net excess generation during the billing period at a rate equal to the local distribution utility's avoided cost of electric supply over the billing period. The monetary credits shall be applied to the bills of the customer-generator for the preceding billing period and shall offset the cost of energy owed by the customer-generator. If the energy portion of the customer-generator's bill is less than zero in any month, monetary credits shall be carried over to future bills of the customer-generator until the balance is zero. At the end of each annualized period, any excess monetary credits shall be paid out to coincide with the final bill of that period; and is not intended to offset or provide credits for electricity consumption at another location owned, operated, leased, or otherwise controlled by the customer-generator or for any other customer.

Monthly Water Meter Fee:

Urban Residential – Customer whose facilities are inside the city limits of Auburn, NE.

Rural - Customer whose facility does not meet the description above.

*For this Rate-change Service from Water to Non-Metered Service

Note: All properties that are connected to City water system will be charged the non-metered fee unless the water service line has been disconnected from the city water main and inspected by a BPW Employee.

Customer Rate Classification

Residential - Single Family Dwelling Unit, Mobile Home (only if placed on a foundation) and does not meet any other classification. Customer shall be billed monthly.

General Service - Customer in this class shall include but not be limited to the following: Apartments, Multifamily Housing, Mobile Home Park, Motel / Hotels, RV Park or any multifamily location with a single

water meter, Nursing Home, School, Hospital, Dry Cleaning, Laundromat, Car Wash, Hair Salon, Automotive Shop, Garages, and Restaurants.

Municipal – Any municipal location.

Seasonal User – Customers in this class shall include locations such as temporary water, construction locations, hydrants, lawn sprinkler meters, usage from fire hydrants or any locations determined by BPW.

Monthly Use Fee:

Water user fees shall be calculated on the basis of water consumption monthly.

CUSTOMER CLASSIFICATION	USER FEE PER 1,000 GALLONS
Rural Residential	\$4.15
Urban Residential	\$4.12
Rural General Service	\$4.15
General Service	\$4.12
Water boy / Construction / Temporary or Seasonal	\$4.50

Unused Service Line

Whenever any of the following conditions exist, the service pipe to a property shall be disconnected at the main at the cost to the property owner:

- Unused service pipe that does not conform to current specifications.
- Unused service pipe that is in need of repairs or is over 10 yrs in age.
- Unused service line where the building has been removed.
- Unused service line where the building that is served has been condemned.
- Unused service line that has no current purpose.

Fire Protection Service

Monthly service charge for any un-metered private fire protection service

URBAN		RURAL	
Monthly Cost	Water Service Line Size	Monthly Cost	Water Service Line Size
\$17.50	2 inch or smaller	\$17.90	2 inch or smaller
\$21.00	2 ½	\$21.50	2 ½
\$31.50	4	\$32.30	4
\$44.80	6	\$45.90	6
\$62.80	8	\$62.90	8

Monthly Bill:

The monthly bill computed in accordance with the Monthly Rate is due upon receipt. Bills not paid by the delinquent date indicated on the utility bill shall have a penalty amount added to the net monthly bill (excluding sales tax). If the due date falls on a non-business day, only payments received in the night drop box and through the AM mail on the next business day following the due date will not be assessed a penalty.

Wastewater Monthly Rate:

The monthly rate may be composed of the following:

- 1) Monthly Minimum Fee
- 2) Sewer Usage Fee
- 3) Extra Strength Sewer Fee when applicable

Monthly Minimum will be multiplied by the number of water meters or know sewer tap into the city main that serves the Building or property

Customer Classification

Resident Single-Family - Single Family Dwelling Unit or individually billed Mobile Homes, Apartments, Townhouses & Duplexes within the city limits of Auburn.

Monthly Minimum Fee of: \$30.00 per month
Plus Usage Fee of: \$0.0034 per gallon

General Service - Customer in this classification shall include Commercial Businesses or customers that do not meet any other classification that are within the city limits of Auburn.

Monthly Minimum Fee of: \$22.00
Plus Usage Fee of: \$0.0086 per gallon

Industrial - Industrial Sewer Service shall be defined as the provision of sewer service to premises wherein the manufacturing or processing of a product is performed.

Monthly Minimum Fee of: \$22.00
Plus Usage Fee of: \$0.0086 per gallon

Rural Service - Customer in this classification shall include Single Family Dwelling Unit and Commercial Businesses but not be limited to: Nursing Home, School, Hospital, and does not meet any other classifications that are outside the city limits.

Monthly Minimum Fee of: \$21.00
Usage Fee of: \$0.00860 gallon

Sewer No Water – Minimum Monthly Fee \$21.00

Notes:

All properties that are connected to City sewer will be charged a Minimum Monthly Bill as determined by Customer Classification unless the sewer line to the property has been properly capped at the customer's property line and inspected by a BPW Employee.

Annual Sewer Use Fee Calculation:

This rate shall be effective with the billing month of April of each year.

All Single Family Residential customers' usage shall be calculated on the basis of water consumption for the billing months of January, February, and March (of the current year). Sewer use fees to be calculated at per 100 gallons of the three months' average water usage. Said calculation is to be made each year for each utility customer. This rate shall be effective with the billing month of April of each year.

All other Customers usages shall be figured on 100% water used measured by water meter and then billed on a three-month rolling average.

Exceptions: Monthly Sewer Use Fee for Customer with no Water Usage: Customer whose Sewer Use Fee is figured by Annual Sewer Use Fee Calculation and having no water usage during this period, shall pay a sewer use fee based on an average sewer use fee based on customers in the same classification.

Monthly Bill:

The monthly bill computed in accordance with the Monthly Rate is due upon receipt. Bills not paid by the delinquent date indicated on the utility bill shall have a penalty amount added to the net monthly bill (excluding sales tax). If the due date falls on a non-business day, only payments received in the night drop box and through the AM mail on the next business day following the due date will not be assessed a penalty.

Extra Strength Sewer

Extra Strength Sewer would be any customer sewer waste/flow having concentrations exceeding one hundred fifty (150) milligrams per liter BOD or two hundred (200) milligrams per liter suspended solids or twenty-five (25) milligrams per liter of total ammonia and organic nitrogen content in wastewater as determined by approved laboratory procedures.

The following additional surcharge will be used for any customer that sewer waste exceeds standard domestic strength as follows:

BOD, Biochemical Oxygen Demand, is the quantity of oxygen utilized in the biological oxidation of organic matter under standard laboratory conditions for 5 days at a temperature of 20 degrees Centigrade. The determination of the charge for BOD is as follows:

BOD in parts per million X 8.34 x volume in million gallons = pounds of BOD X \$0.19.

SS, Suspended Solids, is that which either floats on the surface or is in suspension in sewage and which is determined by laboratory filtering. The determination of the charge for Suspended Solids is as follows:

**SS in parts per million X 8.34 x volume in million gallons = pounds of
Suspended Solids X \$0.12.**

Nitrogen (NH₃) is that form of nitrogen in the tri-negative oxidation state, which is chemically definable as the compound NH₃. The determination of the charge for Ammonia is as follows:

**NH₃ in parts per million X \$8.34 x volume in million gallons = pounds of
Ammonia x \$0.13.**

Customer will also be required to pay labor, sampling and lab fees and other expenses incurred by BPW to determine waste strength.

Sewer Usage Adjustment

Customers who experience a water leak or waste of water during the sewer usage calculation months where the water drained through the City Sewer System will be required to pay sewer usage on this water for a minimum period of three (3) months, at which point the sewer usage fee may be adjusted. This would include but not be limited to leaks such as stools, water softeners, and broken pipes. Customers who experience a water leak that did not drain through wastewater system must notify the BPW for an adjustment which will be based on previous usage history.

MISCELLANEOUS FEE SCHEDULE

UTILITY DEPOSIT FEES

Residential and Commercial Customer Deposits

Electric Only	\$300.00
Water Only	\$50.00
Wastewater Only	\$50.00
All Utilities	\$300.00

The deposit amounts listed above are “minimums” – the “maximum” deposit is two (2) times the customer’s largest bill on file or largest bill at the same address whichever is greater.

Full Deposits will be required on all accounts unless:

1. Customer has established a good payment history with the utility.
2. Customer has a good credit rating through BPW Credit Check.
 - A credit check fee of \$10.75 and will be applied to a customer’s first month’s bill.

Customers who have no deposit on file and develop a poor payment history will be required to establish a deposit with BPW. One half of the deposit is required up front and payment arrangements can be made for the balance of the deposit with a maximum of three installments.

Deposits shall be returned after a customer establishes an excellent credit history over a two year period.

Returned ACH or Check Fee Each incident \$30.00

If BPW receives two returned checks or ACH’s in a period of one year or less, the account will become cash or credit /debit card only.

Late Payment Penalty

All accounts not paid by 5:00 p.m. on the 15th of each month will be charged 6% on the unpaid balance.

Paperless Billing

Customers can elect to participate in the BPW Paperless Billing option:

1. Customer will be required to complete and submit a Request for Paperless Billing.
2. Customer or a BPW Employee will sign a customer up for billing email notifications through our secure Xpress Bill Pay provider.
3. Customers will receive a credit of \$1.00 per billing cycle for going paperless.
4. If a customer is paperless and also elects to make payments through ACH, then an additional credit of \$1.00 per billing cycle will be applied to the customer’s account.
5. This \$2.00 monthly credit option is available to all accounts and customer classes, residential and commercial.

CONNECTION FEES FOR ALL CUSTOMER TYPES

(5/11/2017 – Effective June 1, 2017)

New Services or accounts where a trip to the service location is required.

Connection of a new account or transfer of an account for all or any one service:

Electric, Water or Sewer \$20.00

After hours, connection will be the above amount list plus overtime cost incurred to make the connection with a minimum of one hour at current BPW hourly rate.

Connection Fees Due To Disconnection for Nonpayment

INSIDE AUBURN CITY LIMITS

Electric

Normal Business Hours \$50.00

Water:

Normal Business Hours \$50.00

After hours, connection will be the above amount list plus overtime cost incurred to make the connection with a minimum of one hour at current BPW hourly rate.

OUTSIDE AUBURN CITY LIMITS

Electric or Water:

Normal Business Hours \$75.00

After hours, connection will be the above amount list plus overtime cost incurred to make the connection with a minimum of one hour at current BPW hourly rate.

Residential Garbage Collection

All residential customers are required to have garbage service. The BPW partners with American Recycling & Sanitation for residential garbage service. Garbage will be picked up once a week unless you opt for twice a week collection.

Single Family Unit:

Once per Week Solid Waste/Recycling collection \$12.95 per month

Single Family Unit - Senior Rate, 65 or older.

Once per Week Solid Waste/Recycling collection \$9.95 per month

Single Family Unit:

Twice per Week Solid Waste/Recycling collection \$25.00 per month

No Senior Rate Offered

90 Gallon Poly Cart Rental \$3.50 per month

Please contact the Auburn Board of Public Works at 402-274-4981 to arrange special pick up of appliances, tires, and yard waste. The cost for this service varies according to volume and item.

RECYCLING

Residential Recycling Service

Recycling service is provided for all in town residential customers. Recyclables and trash are picked up on the same service day. If you have twice per week service, your recycles are picked up on your first service day of the week.

Sort materials into three categories: Plastic, Tin, Aluminum, Paper and Trash
Dumpsters associated with apartment complexes, will not be considered residential billing.

UNDERGROUND ELECTRIC SERVICE FEE – SECONDARY SERVICES

Residential Customers

New Home / New Service

Non-Total Electric

Customer pays costs of material used to install the service.

Total Electric

For a new residential customer requesting service of less than 201 amps there will be no charge. For a new residential customer requesting service greater than 201 amps, the customer will pay the additional material cost above a 200-amp service cost.

Existing Homes

Homes currently served by an existing overhead service will need to complete a URD Request Form.

For an existing residential customer requesting service of less than 201 amps, there will be no charge. For an existing residential customer requesting service greater than 201 amps, the customer will pay the additional material cost above a 200-amp service cost.

Homes that are requesting an URD service, and the service entrance wiring to the property does not meet NEC requirements or is in poor condition, will have to have the service entrance wiring updated or corrected before the URD service will be connected or installed.

General Service

New Building

Coordination will be needed between Customer's Contractor and BPW as customers' secondary connection point will need to be established. Cost incurred by BPW to establish secondary connection point may require an aid to construction cost.

Existing Service

Coordination will be needed between Customer's Contractor and BPW as customers' secondary connection point will need to be established. Cost incurred by BPW to establish secondary connection point may require an aid to construction cost.

Low Use Service

Location such as water pumps, cribs, feed lots, garages, shops, storage sheds, etc. customer pays the full cost incurred to install the service.

Industrial

Coordination will be needed between Customer's Contractor and BPW as customers' secondary connection point will need to be established. Cost incurred by BPW to establish secondary connection point may require an aid to construction cost.

Overhead Services Fees (Where Permitted)

Overhead services are not permitted unless determined by the utility that underground installation is technically or economically undesirable.

Water Service Tap Fee

The fee for a 1" water service will be \$850.00. The fee for any other size water service will be time and materials.

Water Smart Meter Service

Customer who request Smart Water Meter Service will be charged a monthly fee of \$5.00 per month. This will be for a minimum period of one year or 12 months.

Water Fee for Controlled Burn

Flat fee \$100.00

This amount must be paid before the burning permit will be issued by the City.

(For all property owners, who request a burning permit to have the Fire Department perform a controlled burn to help in the removal of property from a lot or land where the water used during this controlled burn comes from the water supply under the direction of the Board of Public Works.)

Backflow Device Administration Cost

Per each backflow device installed at an account \$15.00/year

Testing Backflow Preventers

Per each backflow device tested by BPW \$85.00

Water Fee for Hooking Up To Fire Hydrant - Temporary

Company/person requesting service shall pay meter deposit	\$500.00 (refundable)
Meter setup/connection fee	\$125.00 (non-refundable)
Service Charge (same as 2" meter)	Current Rates
Administrative Charge	Current Rates

Form must be completed and signed.

Sewer Connection Fee

Sewer Connections will be completed by a contractor hired and paid for by the Customer. All sewer connection will need inspected by BPW.

Sewer Tap Locate and Inspection \$100.00

This is the fee that will be billed to locate and inspect a sewer tap utilizing our vac flusher truck and its camera.

On Site Wastewater Treatments System (Sewer) Tank Dumping Fee \$40.00

The Minimum Fee shall be \$40.00 plus the current sewer use fee per 1,000 gallons (to be determined by size of tank being dumped).

Commercial Waste Tank Dump Fee (Non-Toxic Organic Waste Only) \$35.00

The Minimum Fee shall be \$40.00 plus the current sewer use fee per 1,000 gallons (to be determined by size of tank being dumped).

All waste in this form will be considered Extra Strength and would impose the following extra surcharge **would be any customer sewer waste/flow having concentrations exceeding one hundred fifty (150) milligrams per liter BOD or two hundred (200) milligrams per liter suspended solids or twenty-five (25) milligrams per liter of total ammonia and organic nitrogen content in wastewater as determined by approved laboratory procedures.**

The following additional surcharge will be used for any customer that sewer waste exceeds standard domestic strength as follows:

BOD, Biochemical Oxygen Demand, is the quantity of oxygen utilized in the biological oxidation of organic matter under standard laboratory conditions. The determination of the charge for BOD is as follows:

If you have a Suspended Solids Sample that gets a different Number we can use that, but without a sample I think this is close.

5,500 gallons X \$8.86 per 1,000 = \$47.30

5,500 gallons X 8.34 = 45,870 lbs.
45,870 lbs. X 96.5% water = 44,265 lbs. water
45,870 - 44,265 = 1,605 lbs. solids
1,605 X \$0.12 = \$192.00

Customer will also be required to pay labor, sampling and lab fees and other expenses incurred by BPW to determine waste strength.

EXTENSIONS POLICY

Water / Wastewater:

All extensions will be the sole cost of the customer who is requesting the extension.

Material Sold on Customer Charges

All material sold to any customer shall be at a markup of 50% of BPW Avg. Inventory Cost (This includes contractors, electricians, plumbers, BPW, personnel unless purchase is for employee's job required equipment, etc.)

Shared Trench

When phone lines and cable lines are installed along with electrical lines, the minimum charge shall be the minimum trenching charge plus the minimum labor charge up to 80', each foot above 80' shall be billed at \$0.75/ft.

Charges for equipment and labor shall be the time incurred to perform the work and travel time. (Travel time is determined by the schedule – if more than one job is scheduled, travel time will be based on one way; however, if only one job is performed and personnel return to BPW then travel time will from the time left to the time checked back in to BPW.)

TERMS AND CONDITIONS

Applicable:

To all rate schedules.

Tax Clause:

All rates may be increased by the amount of any present, new, or increased governmental tax imposed or levied on the transmission, distribution, production, or sale of electricity or products/services.

Production Cost Adjustment:

All rates and bills for service rendered under Board of Public Works rate schedules may be adjusted from month to month to reflect changes in the production or purchase of electricity.

Seasonal Rates:

Where the rate schedules designate summer and winter seasons, they shall be defined as follows:

➤ Summer

From the meter reading on or after June 1 until the meter reading on or after October 1 (approximates June through September usage).

➤ Winter

Board of Public Works
P.O. Box 288
Auburn NE 68305-0288

Miscellaneous Fee Schedule

Effective: June 2017 Billing Period

From the meter reading on or after October 1 until the meter reading on or after June 1 (approximates October through May usage).

Line Extensions:

All Board of Public Works rates are available in the areas designated in the rate schedules subject to the Line Extensions policy for new or upgraded services.

Customer Facilities:

All wiring, pole lines, electrical equipment, etc. located on the load side of the Board of Public Works metering shall be furnished and maintained by the customers, except as designated in the rate schedules.

Reliability:

Board of Public Works will endeavor to give adequate and dependable electric service but shall not be responsible in damages for any failure to supply electricity without willful default or negligence on its part. Electricity furnished by Board of Public Works shall become the property of the customer after it passes through the meter and Board of Public Works shall not be liable for damages resulting therefrom.
